

Title: Manual Machinist (permanent/full-time, 2nd & 3rd shifts available)
Reports To: Shift Supervisor
Pay Range: Based on experience

Description:

Your primary responsibility will be to set up and operate a variety of machine tools. This position fits and assembles parts to make or repair other machines. You will be applying knowledge of mechanics, mathematics and machining procedures. You will study specifications including blueprints, sketches, or descriptions of parts to be manufactured or replaced, and check work using precision measuring tools, such as micrometers and calipers.

Typical work activities include:

- Using hand tools and machines proficiently
- Working with typical tools including drills and saws. Familiarity with grinding, milling and lathe operations.
- Measuring and cutting

Qualifications:

- Understanding of general machine shop practices

Essential:

- A high school or vocational school education
- Blueprints – ability to read
- Tools experience
- Must own your own tools
- Ability to picture what finished product will look like.
- Apprenticeship, in-plant / on-the-job training or other job shop experience desired.
- Strong math skills – to check accuracy of your work
- Ability to meet strict standards

Additional:

- Set-up & operate CNC (computer numerically controlled) machine tools helpful
- Ability to handle multiple priorities and demands from multiple sources.
- Strong organization skills
- Ability to work independently and as a team member
